

Transportation worldwide

- Returns from abroad
- Transportation abroad
- Transportation within Germany

- **There is the potential to transport abroad or from abroad by air or, if possible, using an air-conditioned hearse. However, we often recommend the air transport option as this is considered most cost-effective and straightforward.**

- Achievable in 24 hours

- Immediate, personal support in the event of death

- Organisation of transport

- Hygienic initial care of the deceased

- Collection of all necessary documents
(E.g. hospital, doctor, police, register office, office of public order etc.)

- Organisation and execution of the required second post-mortem by a coroner

- Provision of the necessary medical certificates

- Application for laissez-passer documents

- Provision of necessary translations

- If required, provision of apostille certificates

- Completion of formalities at the consulate

- Embalming if required or desired
(Preservation of the deceased)

- Selection and delivery of coffins with required metal insert
(You can pick from various coffin models)

- Full customs clearance
- Coordination and booking of flights
- Transportation to the airport
- **As a matter of course, a personal farewell to the deceased or a funeral service can take place (if this is desired)**
